LinkedIn Profile: <https://www.linkedin.com/in/shivambahuguna88>

Portfolio Website: <https://shivam26102022.github.io/Shivam-Portfolio/index.html>

Preferred Location: Pune

Notice Period: 90 days

Objective

To apply my expertise in Data Science and deliver impactful solutions to clients, contributing to the growth of the company and personal advancement in the field. My goal is to leverage data-driven insights and advanced AI techniques to drive innovation and enhance business operations through effective Service Delivery.

Summary

- Results-driven Data Scientist with a diverse background in Tata Consultancy Services, proficient in various technologies.
 - Proactive learner, continuously adopting emerging trends in data science and cloud technologies to drive innovation.
 - Passionate about leveraging advanced AI techniques, cloud computing, and other technologies to deliver impactful solutions in the dynamic field of data science.
 - A proactive learner with a flair for adopting emerging trends & addressing industry requirements to achieve organizational objectives & profitability norms.
 - Highly motivated, positive minded and goal-oriented professional.
 - Looking forward to being associated with a progressive organization through a responsible position where my ability and experience will have a valuable application.
 - An effective communicator with excellent relationship-building & interpersonal skills, and strong analytical, problem solving & organizational abilities.
 - Skilled IT Subject matter expert with extensive experience in the Support & Development Field.
 - Experience in an End user Based Environment
 - Provide Support via Email, Chat and Web Requests.
 - Grasping New Technologies and process as per the business requirements.
 - Remain Calm and Patient during Difficult Technical Issues and outages.
 - Review and Troubleshoot Software and Hardware Problems.
 - Solve Problems Systematically and Effectively.
 - Strong Oral, Written, and Interpersonal Communication.
 - Experienced Data Engineer proficient in managing scalable and efficient software solutions.
 - Strong Sense of Ownership, Urgency, and Driving a Team.
-

Work Experience

Tata Consultancy Services (October 2021 - Present)

Data Scientist – TCS (Internal)

Machine Learning and Data Science:

- Developed machine learning models, resulting in a 25% accuracy improvement over existing methods.
- Executed successful Proof of Concepts (POCs) for clients in various industries, showcasing the feasibility and value of data-driven solutions.
- Applied pre-trained NLP models to automate customer support, reducing response time by 40% and improving customer satisfaction.

Data Visualization and Automation:

- Created interactive data visualizations and dashboards for prompt decision-making.
- Implemented AutoML techniques, reducing model development time by 30% and enabling rapid experimentation with algorithms.

Generative AI Expertise:

- Conducted in-depth research on Generative AI architectures (VAEs, GANs, RNNs, CNNs, Transformers).
- Proficient in fine-tuning LLMs such as GPT-3, LaMini, PaLM, Flan T5, DALL-E, and others.
- Developed and implemented efficient Parameter Efficient Fine-Tuning (PEFT) techniques (Lora and QLora) to enhance LLM capabilities.
- Applied innovative prompt engineering for improved quality and controllability of LLM-generated outputs.
- Worked with advanced Retrieval Augmented Generation (RAG) techniques, integrating LlamaIndex for diverse data storage and enhancing LLM capabilities.

AI Applications and Infrastructure Design:

- Implemented a wide range of AI techniques including OCR, image generation, text-to-speech, and machine translation.
- Designed and deployed scalable and efficient infrastructures tailored for managing and deploying Generative AI applications.
- Pioneered user interface (UI) customization methods for personalized appearance and functionality of Generative AI applications.

ETL Data Engineer – Converse

Matillion Data Engineering: Designed and managed data pipelines using Matillion, ensuring seamless integration with Snowflake.

System Monitoring: Monitored and troubleshoot system flows between Converse production and native HANA system using SLT replication.

Snowflake Expertise: Mastered and Leveraged Snowflake's architecture and ETL best practices.

SAP BI/BW Analyst – NIKE

Warehouse Data Management : Improved system uptime by 20% through regular stakeholder communication and proactive monitoring.

Documentation and Optimization: Created streamlined flowcharts, diagrams, and documentation for process optimization.

Incident Management: Achieved a 30% reduction in incident resolution time using the Service Now Portal.

Data Analysis and Resolution: Identified root causes, resulting in a 15% decrease in recurring issues.

Troubleshooting and Knowledge Base: Documented resolutions for the knowledge base, reducing issue resolution time by 25%.

Technical Skills

- SAP : BI, BW & BO
- ETL: Matillion, SAP_BW, Apache Beam
- Cloud Platforms : AWS, Azure, GCP (ACE Certified)
- Databases : HANA DB, SNOWFLAKE, PostgreSQL
- Data Visualisation : Apache Superset, Tableau, Cristal Reports, Looker Studio
- Data Science: ML, Deep Learning, Natural Language Processing, GenerativeAI, Statistics

Tools & Portals:

- Data Science: Jupyter Notebook, Python, Tableau, AWS SageMaker, Microsoft Azure ML Studio, Google Colab, TensorBoard, Kaggle, Vertex AI.
- SAP & Cloud : SAP Logon, SAP HANA STUDIO, SAP Business Explorer, SAP Analysis for Microsoft Office, Query Designer, ServiceNow, Autosys PRD RLS, Retail Portal, Pegasus, BI Launch Pad, Matillion ETL for Snowflake, CMC portals.

Skill Set:

Operations:

- Ensuring all process-related deadlines are met.
- Managing and escalating process deviations.
- Incident resolution weekly review and enhancement suggestion.
- Ensuring SLA, and OLA is met.
- Request Management.
- Subject matter expert
- Incident lifecycle coordination.
- Ticketing-Resolution and escalation.

Personal:

- Good listener and effective speaker.
- Innovative thinker.
- Smart worker and client's favorite.
- Adaptable, Tolerant, and transparent.
- High goal-setter and achiever.
- Adherence to management inputs.

Cooperate Certifications

- Google -
Google Cloud Certified for Associate Cloud Engineer
- Amazon -
AWS Certified for Cloud Practitioner
AWS Machine Learning Specialist
- Six Sigma -
Lean Six Sigma White & Yellow Belt.

Trainings & Internships

- **2019. Oil and Natural Gas Corporation (ONGC)**

Done 2 field internships under ONGC.

- Prepare the Well Plan as per estimated pore & fracture profiles, for Wells to be drilled at anonymous fields of ONGC, compiling with applicable criterion for casing sheet selection.
- Drill String design for two ONGC wells & study of Mud Circulating System.

- **2020. Indian Oil Corporation Ltd.**

LNG Storage at Satellite Station on consumer point.

- **2020. PioPetro, Arab Oil & Gas, SPE Egypt Section.**

Petroleum Engineering Internship

Projects

Oil & Gas Domain

- **Production Optimization of Reservoir Using Genetic Algorithm**

The focus of work for this project has been on using Genetic algorithm methods from to tackle the challenges relating to production optimization of sub-sea oil reservoirs and to check validity of reservoir.

Learning's - Matlab, Genetic Algorithm, CMG.

- **Liquefied Petroleum Gas Leakage Detection**

The aim of this project is to design and construct a microcontroller based liquefied petroleum gas leakage detection and monitoring system using GSM module, a system capable of detecting if there is a gas leakage and alert the concerned authority via message.

Learning's - Arduino, IOT, GSM, Gas properties.

- **Site suitability analysis for optimal pipeline**

Determination of the most cost effective and environmentally pleasing route for pipeline placement by using Geographic Information Systems (GIS) to counter the spatial problems encountered in the pipeline manufacturing and engineering industry.

Learning's - GIS, Pipeline routing, CGD.

IT Domain

- Sentiment Analysis using CNN Deep learning
- Machinery Fault Prediction Application.
- Handwritten Text Recognition using Random Forest
- Content Creation using GenAI
- Netflix Tableau Dashboard
- Blood Bank UI Project

Academic Background

- Post Graduation (**Machine Learning & Artificial Intelligence**) – International Institute of Information Technology Bangalore – 2023 (Pursuing)
- Bachelor of Technology (**Petroleum Engineering**)– University of Petroleum and Energy Studies – 2021 (72.8%)
- Higher Secondary Examination – 2016 (70%)
- Secondary Examination – 2014 (70%)

Extra Curriculum

- Photography
- UI Designing
- Online Courses and Certifications
- IT-related Personal Projects

Personal Snippets

- **Date of Birth:** 24th March 1998
- **Languages Known:** English and Hindi.
- **Religion:** Hinduism
- **Nationality:** Indian

Permanent Address

Village Mangshu Chauras Tehri Garhwal, P.C 249161, Uttarakhand, India

Declaration

I hereby declare that all the above-mentioned information is true to the best of my knowledge. I will be able to provide the necessary documents whenever required.
